March 27, 2017

Mr. Michael Sparks
[REDACTED]

Dear Mr. Sparks:

The National Weather Service (NWS) is pleased to inform you that your application for use of the NOAA Weather Radio (NWR) All Hazards logo on your non-commercial website homepage at <http://noaaweatherradio.org> has been approved.

Use of the NWR All Hazards logo on the website provides an excellent opportunity to promote NOAA Weather Radio. Visitors to your website may also be inclined to learn more about NWR, weather radio receivers, and weather conditions and events.

The website <http://noaaweatherradio.org>, which hosts streaming NOAA Weather Radio audio broadcasts by personal weather station operators is authorized to display the NWR All Hazards logo on its home page. The authorization to use the NWR All Hazards logo does not extend to any other use or purpose. Information pertaining to the use of the logo may be found on our website at <http://www.nws.noaa.gov/nwr>.

We will forward camera ready artwork to your e-mail address for use. Please refrain from downloading NWR All Hazards logo images from the internet as they may not represent the current logo which is a registered trademark of the NWS.

If you have any questions regarding this action, please contact John Simensky at (301) 427-9318 or e-mail john.simensky@noaa.gov. Thank you for supporting NOAA Weather Radio.

Sincerely,

Craig S. Hodan
Head, Dissemination Systems Team
NOAA National Weather Service
